## HERO

Connected to LinkedIn

Sub-100ms scoring

Hire deeper than keywords.

Hire who will actually succeed.

Post a role, and our AI scans real LinkedIn profiles to deliver your top 3 matches — then writes each candidate a personalised message. When they reply YES, your CRM updates automatically.

Start Workspace Access

43,365

candidates scored this week

01 — RANKED SHORTLIST

Your top 3 LinkedIn matches, scored 100 / 90 / 80 with Gold, Silver and Bronze tiers.

02 — AUTOMATIC OUTREACH

Each candidate gets a personalised LinkedIn message, written and sent for you.

03 — CRM UPDATES ITSELF

A YES reply moves the candidate down the pipeline and syncs to your CRM instantly.

## **HOW IT WORKS**

### HOW IT WORKS

The full hiring flow, automated

From login to CRM update — 8 steps that turn 3 days of sourcing into 3 minutes.

#### PHASE 01

HR sets the target

HR logs in

Sign in with email/password or LinkedIn OAuth, title and company verified.

Create a role

Paste the JD, add location, seniority, years of experience, and must-have skills.

#### PHASE 02

AI builds the search

AI reads the role

Extracts requirements, skills, culture signals, and hidden qualities.

LinkedIn profile scan

Searches real LinkedIn profiles and returns the most relevant candidates.

#### PHASE 03

Ranked matches & outreach

Ranked top 3

Gold (100%) · Silver (90%) · Bronze (80%) with scores and AI reasoning.

AI writes outreach

Personalised LinkedIn message per candidate — warm, human, auto-sent.

#### PHASE 04

Send, reply, sync

Auto-send & monitor

Messages are sent automatically via LinkedIn. The system waits and tracks the reply.

Candidate replies YES

Reply detected, notification fires, CRM pipeline updates automatically.

## **THE NUMBERS**

### OLD WAY

3 days

to find, contact, and hear back

### NEW WAY

## **HUMAN STORY**

Beyond keywords —

into the human story

Your team isn't built on résumés — it's built on people. Our Deep-Thinking Engine studies adaptability, growth patterns, and how candidates think in real situations.

## **TIERS (GOLD / SILVER / BRONZE)**

DEEP-THINKING MATCH TIERS

How we rank your candidates

Every AI search surfaces exactly three tiers — so you always know who to call first.

100%

Match

The Perfect Soul

Exact experience and cultural alignment. These are candidates that usually take weeks to source manually.

PRO ONLY

90%

Match

The Mirror

Similar qualities and high-level experience in your industry. Strong signal, available in free search.

INCLUDED IN FREE SEARCH

80%

Match

The Adjacent

Professionals working in similar roles around your target position. Where competitive edge lives.

INCLUDED IN FREE SEARCH

Our AI goes deeper than keywords to find the adaptability your team needs.

## **API SECTION**

ENTERPRISE API

One call.

Full intelligence.

Send a job description and candidate profile. Get back a multi-dimensional score, natural-language justification, and tier classification — in under 100ms.

REST API

```

## LIVE DEMO

### RESULTS PREVIEW

Three candidates. One search.

After HR clicks "Search with AI", the workspace fills with Gold, Silver, and Bronze cards — each with score, tier, LinkedIn profile, and 3-4 lines of AI reasoning. One click drafts the LinkedIn message; a YES reply updates your CRM instantly.

## TESTIMONIALS

### TRUSTED BY HIRING TEAMS

Built with recruiters, not for them.

Real teams using AI Talent Match Pro to ship hires faster — without losing the human read.

We cut our screening time from three weeks to four days. The match scores are the closest thing to a senior recruiter's gut I've seen.

SL

Sarah Linde

Head of Talent, Northwind

It's the first tool that doesn't just keyword-match. Our hiring managers actually trust the shortlist now — that's the real unlock.

MO

Marcus Okafor

VP People, Lumen Health

Sub-second scoring across 4,000 applicants per role. We went from drowning in CVs to interviewing the right five.

PR

Priya Raman

Talent Lead, Foundry Labs

## WHY WE BUILT IT

WHY WE BUILT THIS

"Hiring deserves depth, not keywords."

Every great team is built on people who don't fit perfectly on paper. Our Deep-Thinking Engine finds the adaptability, growth pattern, and human story behind every candidate — not just the skills on their résumé.

E

Elinor

Founder, AI Talent Match·Pro
